Dinner

CONTENT

The main purpose for this meeting is:

To make sure that the themes in Module 2 will be well taken care of during the course period

To make sure that we all know what we have to do and that we can do it in time

To make sure that the programme for Module 3 is ready and can be run by whom.

To bring in ideas or agree on an evaluation programme for this educational experience and experiment.

The module 2 course starts 14. march and ends 17. June. I hope you all manage to make a full study programme with time schedule and tasks for 14 weeks till we meet in Jønkøping. If this is done it is possible to structure the platform for every theme.

There are also some lessons (lectures to be prepared) and I hope we can supply each other with link to web-addresses.

If you have some material you think can be useful for other partners in the group, i.e. lectures, study material, pictures or cartoons that can be used as triggers, please bring this too.

During this meeting we have to

- make sure that we all know what we have to do as teachers running module 2
- to agree on co operation among teachers and share responsibility
- to agree on the level of contact and support to the students in the courses
- to make sure we have enough people to do the job, both teaching at the summer school, and as assessors for module 1, 2 and 3.
- to decide what lectures we want to be held during the module 3 programme, and agree on the responsibility of running the courses in Parma.
- To agree on the assessment in module 2 – what the final portfolio for exam will contain, number of pages (this is not specified in the curriculum plan)
- Work out and agree on an assessor instruction for the different modules (if you can manage bring your suggestion to the meeting)
- Work out a guide for students for their final exam (may be some of you can work this out)
- Discuss research, evaluation and reporting this educational experience.

Looking forward meeting you all in Jønkøping! ☺

Anne Karin
